# A Trip to Langkawi, Malaysia

By Chan Lok Tung, Daffany

Last summer holidays, I went to Langkawi with my family and my mother's friends. We stayed there for three days.

Langkawi is a very small island so there are only a few types of transport. People walk or drive their own cars. One of my mother's friends drove us to different places on the island.

On the first day, we went to Pulau Payar Marine Park. There are four islands in the park. We could swim, dive and feed the baby sharks there. When I went snorkeling, many fish were swimming around me and bit me. It was painful! Then we went to feed the baby sharks and swim with them. At the beginning, I was very afraid of them. But after I swam with them for a few minutes, I thought they were very cute and friendly. After I went back to the hotel, I was very tired so I went to sleep.

On the second day, we took the Langkawi Cable Car. It crossed over the Langkawi west beach and Mat Chincang Mountain. After we took the Langkawi Cable Car, we went to visit the Seven Wells. We took a lot of beautiful photos.

On the third day, we went to Dataran Lang to take photos with the eagle statue. Then we bought some souvenirs.

I enjoyed the trip very much! I want to go there again!

# Our Teacher, Our Friend

Written by: **Zang Kai Yee, Amy,**  
**Lui Chung Yan, Happy,**  
**Yu Yan Tung, Eva**

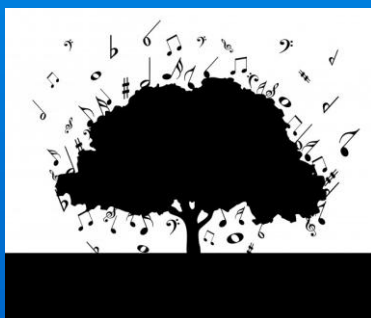

We interviewed Ms. Chan and asked her some questions about herself. Ms. Chan is a confident person. She teaches music and English. We had an unforgettable experience. Ms. Chan has been teaching for 24 years. She likes teaching. In fact, she did not really like teaching when she first graduated from university. She just wanted to get a job where she could 'make music happily every day'!

Her most memorable experience in her career was when her father passed away. She was very sad. The next day she went to a music competition with the school choir. Her students gave her a lot of support. And, finally they got the first prize. That was the best gift for her father because he was the one who supported her to study music education.

She likes ALL kinds of music. However, rock and roll is not her favourite because it is too .....NOISY!

Her best friend in this school is Ms. Au. Ms. Au is patient and she always listens to her. Sometimes they have tea together.

Ms. Chan will leave this school in July and end her career. She will 'graduate' with us. We will miss her.

# OUR TEACHER

Written by: **Zang Kai Yee, Amy,**  
**Lui Chung Yan, Happy,**  
**Yu Yan Tung, Eva**

Ms. Wan is our teacher. She teaches English and Art. She has been teaching for 18 years. She thinks being a teacher is interesting and very enjoyable, because she can meet many students.

Ms. Wan usually goes shopping and watches dramas and movies in her free time. She spends most of her time with her two children. One of them is 8 years old and the other one is 3 years old.

Her most memorable experience of teaching is when she taught some children for three years and she could see them ALL graduate!

I think Ms. Wan is very confident, diligent and responsible. She always helps us when we get into trouble. She is very caring.

One day I went fishing with my friend. The weather was sunny at the beginning but it suddenly rained heavily. It was stormy. Our boat broke. We landed on an island called Ding Ding Island. The island was very quiet and there were a lot of tall trees like a forest.

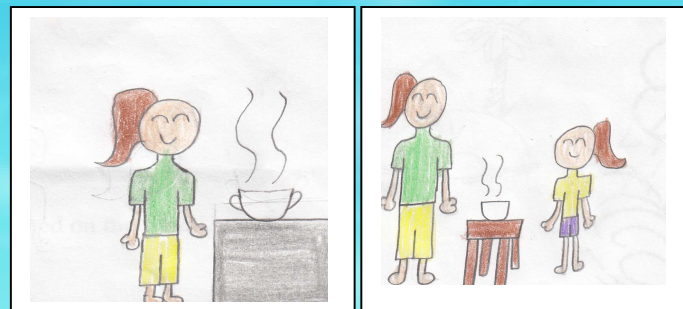

We decided to walk into the forest to look for food because we were very hungry. Suddenly, we could see a monkey. It looked at us carefully. We tried to show it our kindness and gave it the only candy we had. It seemed that the monkey liked the candy very much. Then it walked away.

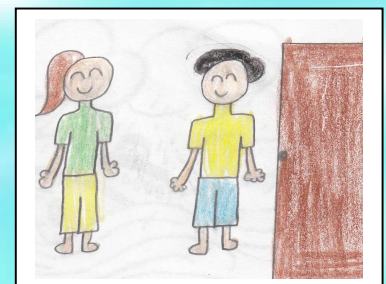

We kept walking into the forest. Suddenly, there was a village.

We ran to a house and luckily there was a woman cooking. Her name was Anne. She was very kind to us. She gave us food to eat.

At night, Anne's husband came back. They decided to send us back home by boat the next day. What an interesting experience!

Subject: Visit to a planet

Dear May,

I went to planet GT-8007 for the holiday. The ride to the planet was extra luxurious. There were jacuzzis, comfy couches and mega huge fridges in the spaceship.

When we arrived at the planet, it was autumn. The inhabitants of the planet were 'foxmages', foxes with a human body. Most of them knew magic. They greeted us kindly when we arrived. We went to the cloakroom first to check in. The butler took us to our lockers. I also bought an audio guide of the planet.

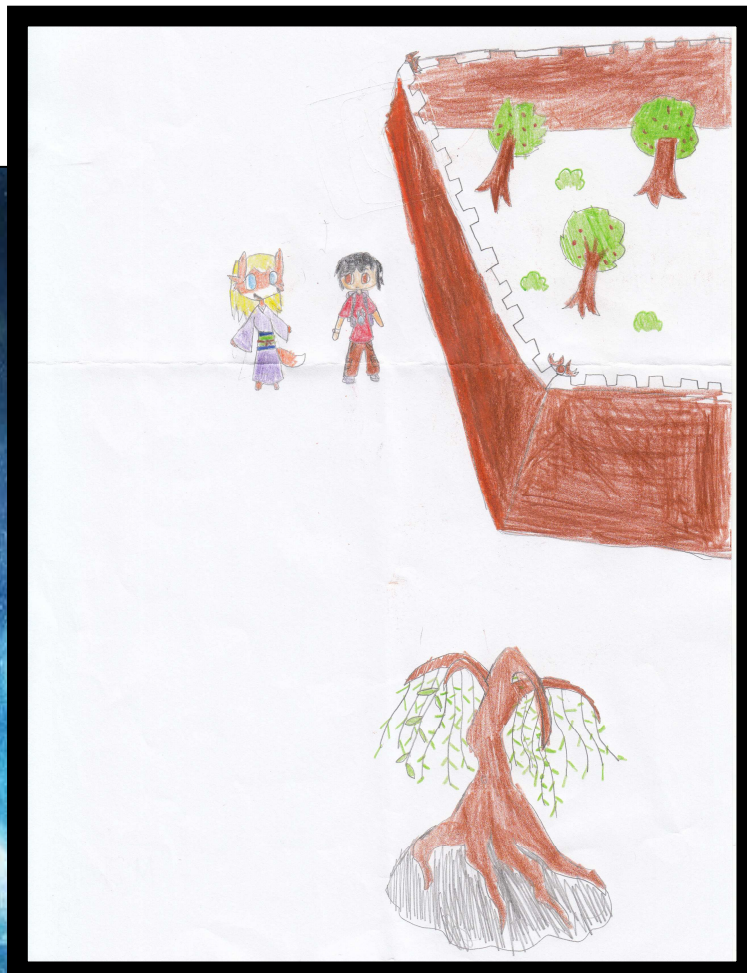

After that, I went to the shopping mall with the audio guide and had lunch there. I had a chance to try a tasty soup. As long as you don't know what is inside the soup, it's tasty.

Later the foxmages taught me some history about the planet. They said it was always autumn on this planet for no reason. So the sweet potatoes that grow here are always tasty.

I met a young foxmage, called Oakleaf, and she dragged me on a shopping frenzy. Oakleaf also introduced me to the famous places on the planet, including the Songwillow Temple. It is a temple that got its name from the 20 foot willow tree that makes a pleasant noise when it is rustled by the wind. We had dinner in a nice restaurant there.

After the tiring day, I returned home with presents and photos. May, will you visit this planet next summer?

Yours  
Michelle

# My Birthday My Birthday

By 6A Lui Chung Yan, Happy

One day I went to visit my grandfather. He was not home. I decided to wait for him. While I was waiting I noticed a funny machine on the floor. I was very surprised. It was a time machine. The machine asked me what year I wanted to travel to. I quickly said I wanted to go to the year 2012.

Suddenly, I woke up and I saw a man sitting next to me. It was my dad. We were taking a bus. I was surprised because I had changed into myself as the silly little girl that I knew when I was younger. That's me in Primary 4! I saw my little hands and little legs and I was not tall at all. I looked at my dad and I asked him, 'Where are we going?' My dad was puzzled. 'Today is your birthday. Did you forget?' he asked. Then I knew I had travelled to the year 2012. That day was the happiest day for me – my birthday!

When I arrived at the restaurant, I saw many people, my grandpa, my aunts and my uncles. But my memory told me that there was still something to come. Suddenly, a woman came in with a big teddy bear. She was wearing a hat and a mask. So strange! Then she walked over to me and I remembered that the woman was my mother. She said, 'My lovely daughter, Happy Birthday!' Yes, that was the happiest day of my life. I cried but happily. My mum gave me the teddy bear. I was touched.

But many stories have sad endings. Suddenly, a red light flashed and the wind blew me out. I was back at my grandpa's house. He was still not there. The time machine was out of order and the teddy bear had disappeared. I was upset. I thought, 'Why did I have to leave so quickly? I didn't even see my mum's face. My final wish is to see her face.'

At last, a photo appeared. It was a photo of my mum and me. I was happy. I will treasure this photo forever.

I was in Primary 1 in Shenzhen in the year 2008. I wanted to go there because I missed my old teachers and classmates very much. I wanted to see them again. I got out of the machine. I was in a dirty bin! 'Oh! So dirty!' I shouted.

I went to my home and had a shower. Then I went to school to see my old teachers and classmates. First, I went to my old classroom. I saw my class teacher. She smiled, 'Please come in Eva. You are late.' I took out my book. Oh no! I brought my P6 book! I'm very silly!

'I can share my book with you,' whispered Sandy. When she opened her book, I thought it looked very easy. The book taught us how to use 'a' and 'an'. 'Do you know how to spell apple?' asked Yoyo. 'A-P-P-L-E' I replied.

I stayed there for one year. I told them I had come from the future. My teachers and classmates were very surprised. I continued, 'I need to go back to my year but I want to say goodbye first.' We cried sadly.

I miss my friends and teachers very much now. They were very kind and nice. I want to say 'Thank you' to them.

## The Time Machine

By 6A Chan Wing Yan, Yanny

One day I went to visit my grandfather. He was not home. I decided to wait for him. While I was waiting I noticed a funny machine on the floor. I was very surprised. It was a time machine. The machine asked me what year I wanted to travel to. I quickly said I wanted to go to the year 2020 where I would be a Form 6 student.

I saw a lot of flowers and trees growing on the buildings. There were swimming pools on the top of the schools. It was amazing.

I went to Yan Oi Tong Tin Ka Ping Secondary School to look for myself in Form 6. There were many faces that I could see from my primary school. Oh! Some of my classmates from P6 could come to the same school. I saw that 'I' was beautiful and very hard-working. I was writing down some notes while the teacher was teaching.

At recess, 'Yanny' went to the playground with her friends. They talked happily and I tried to talk to her. I said, 'Hey! I am Yanny. I am twelve years old. I am Yanny in P.6 and you are Yanny in F.6. Ha! Ha! What a diligent girl!' Yanny looked at me but she didn't say anything. I thought, 'Wow...very cool!' Then she said, 'Hi. I was very small in P.6. How is Ms. Chan? Is she OK? How is her husband?' I told 'Yanny' about the condition of Ms. Chan and her husband. 'Yanny' listened to me. However, her friends could not understand what was happening.

After lunch, the teacher gave a piece of paper to 'Yanny' that was about which university we will go to. 'Yanny' gave the paper to me. 'I can go to Hong Kong University in the future?!' I shouted. 'Yes. Are you happy?' 'Yanny' asked. 'Of course,' I answered. At 3:30 I left school with 'Yanny'.

Suddenly, the view changed. The machine shouted, 'Wake up! Wake up! Time is up!' I shook my head, and thought about what I will do in 2020. Then I remembered it is not now that I will go to university. I got out of the machine. My grandfather was sitting on the sofa waiting for me. 'Yanny, you have come back,' my grandfather said happily. 'Yes, I am back, Grandpa,' I answered. 'I want to talk to you about what I saw and did in 2020.' I started talking to my grandfather and told him everything.
